Monday

7:00 PM - 9:00 PM

Destiny of Souls -- Sanctuary

Tom Baker, two microphones

We will be studying Michael Newton's Destiny of Souls which explains in depth the experience of the soul after death and between lifetimes. We will look at the soul before the council, how the soul learns from its guide, how the soul advances and the color of the soul means, the structure and make-up of soul groups, specialties of various souls, and the preparation of the soul for its return to earth. The spirit world is very orderly and loving, a perfect review of our workshop experience on earth. A thorough study of this material will go a long way to eliminate fear of death or dread of judgement which might be lingering in one's consciousness.
